The radial gradient used in the logo is combined out of different colours.

In the CMYK and RGB version there are 4 colours which combined together give a simulation of a gold shiny colour.

As shown on the example below, there are a few lightspots at certain points to make the logo look more shiny when it's placed on a black background.

Frutador is a brand of Four Seasons Fruit Supply BV. Because this product is so new, we haven't tested the colours to this point.
